

Many farmworkers work hard to fight for their rights, and more people need to know about this. Not many people are informed about the injustice that farmworkers have to endure just to have freedom. I know you can get through this to get the life you deserve. World freedom cannot exist without the freedom of everyone, including farm workers. So, I pray that you can find happiness and get through this hard time.

I want to give you people a special thanks for protecting the rights of migrant workers. I know many people around the country are struggling with this issue. Many of them don't have the ability to feed their families so they turn to this. I love what you do and hope it brings a better future fo all.

Thank you for growing our food. We all really appreciate it and we are very thankful. The things you grow are very delicious. They are very healthy too and we appreciate that. Farming takes patience and I don't have that so I am really happy that you help out this way.

Thank you to all the farmers that have given us great fruits and vegetables. I Appreciate all your hard work and effort. I am writing you this letter to show how appreciative I am of your hard work. I feel the farmers need more Justice because they're working so hard and getting little money. They're working outside for hours and people don't even realize. We wouldn't have as many nutrients in our body without fruit and vegetables. Thank you for everything farmers. 😊

You guys encourage me to help this problem. Fighting justice means that it helps people, and I like helping people. My vision is to have people be free and happy. I also want other people to be free and happy. I want them to not be punished for living their life, or trying to live.

I thank you guys so much for fighting for your rights. I agree that you all are treated unjustly and have a right to speak for Justice. Unfair wages, bad working conditions, and many other things plague the conditions of the workers. I hope that you win against big corpos.

-Dear farmers

Don't stress
Don't fret
Never give up

People need you
Always get up
and try again
..once again

This letter I am writing..
Is to encourage you
and I..
Without a doubt..
will encourage you..
To keep trying

I think you guys are amazing and strong, and your rights matter just as much as everybody else. We're all in this together. We all support you in whatever your choices may be. You are not alone, and I hope that you succeed in gaining back your rights. I also would like to thank you. Not only are you fighting for your rights, but you are also encouraging others to do the same.

Dear Farmers of the united state of America,
We support you and all of your work. Everything that you have done deserves recognition. You deserve to have the same rights as everyone else. We encourage you to keep fighting for social justice. And as you fight so will the rest of us supporting you.

Sir/Ma'am farmworker Justice and a world of freedom are very important to people so thanks for doing what you can in helping this massive movement. To me this is also very passionate to me so thanks. I wish I could be there with you all. Thanks again keep up the good work we can change the world.

All of the workers who are fighting for their rights I hope you continue to do what you do. For us as a school we believe that common good should be spread no matter what the situation is. Farmers should continue to fight because they deserve rights just like everyone else. You farmworkers deserve good pay and a good work environment. All of the farmworkers who are fighting for their rights will also encourage others who don't have the confidence to.

You are equal and do hard work. You deserve what your fighting for! Our school is going for the solidarity theme and we find it important to support you all. As farm workers, you have rights and shouldn't give up. Keep fighting! We believe in you!

Our school is rooting for you! Keep going! Don't stop and remember what you are fighting for.
Everybody's rooting for you. Don't let the bad thoughts win and trust in God.

It begins within the mirror
Giving strength to face thy day
The person you see before you
Shall find a way.

The reflection, though different
Might be all you see
It's all about the future
And what you know can be

In time you'll find strength
Both in body and in mind
Each day shall bring challenge
But strength you're sure to find

Face each day with dignity
With purpose in your heart
Each step moves you forward
You only need to start.

Thank you to all the farmers for all that you have done for us. It means a lot to not just me but others too for all the hard work you put into doing your job. I would also like to thank you for all the skills and hard work your jobs teach others. CIW's work fits into my vision for world freedom for all by rewarding thousands of farmers for all their hard work and what they have been through. Also I would like to see Wendy's, Publix, and Kroger make a program to help celebrate by sharing to others about the hard work of farmers and what they have been and are doing to help everyone.

Dear a farm worker,

Keep fighting for you rights
Eat up the hatefulness
Embrace the motivation
Peel back your anger

It's not over until it's over
No person can bring you down
Spear those who tell you lies
Peel back the sadness
I am rooting for you
Right now is no time to quit
I don't want you to fail
Not anymore can anyone hurt you
Go until you run out of gas

Peel back the sickness
Everyone loves you here
On God you will not fail

Peel back the doubtfulness inside
Leave behind the haters
Every single one of your peers loves you too

This letter spells
KEEP INSPIRING PEOPLE

I believe a world with freedom for all is a world where people aren't mistreated in their work environment. Multi-billion dollar companies should be taken accountable for their misdeeds. Companies with this much wealth can spare the money to let their workers be treated fairly. Farm workers have been oppressed for far too long.

This all means a lot to me and I feel very bad about how you guys have been treated. I feel like you should fight back and get you rights back from these unfair people. They should at least give you guys a fair pay if they are going to make you do hard farm work. This is very unfair and very sad about how these people don't have any sympathy for all of your hard work. I feel so bad and I am sorry for what you have to go through so now I want you to keep on going.

You got this! Keep fighting for your rights. I wish I could fight for farmworker justice doing the walk too. It's very important to me because everyone has the right to a fair wage. The CIW's work fits my vision for a free world because they help end exploitation of workers. Good luck and I hope this message motivates you.

What does fighting for farmworkers justice mean to me? For me this means that you guys are doing something you all love to do. This also means to me that everyone that works for this organization is passionate about this. This organization is so passionate about this job because y'all want to find places to continue this. Don't stop walking no matter what even if things get tough and you guys feel like quitting don't because the outcome of this will help you guys so much.

I really appreciate what you are doing. You are keeping our farms clean of abuse and unjust working conditions for workers. What this means to me is that I can shop at stores and know that I can feel good about what I'm buying. This also helps workers rights and freedoms of farms. Thank you for doing this.
